DETAILED ACTION

Allowable Subject Matter

1. Claims 1-15 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or render obvious a magnetic random access memory device (MRAM), a computer system comprising the device, and a method for operating the MRAM device with all exclusive limitations as recited in claims 1, 11, and 12, comprising an array of MRAM cells, each MRAM cell having a magnetic reference layer, a magnetic data layer, and a heating element, the heating element providing, in use, localized heating of the respective reference layer so as to reduce the coercivity of the reference layer to facilitate switching of the respective reference layer without switching of the data layers.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Copies of the references are not being furnished with this Office Action per MPEP § 707.05(a).

Art Unit: 2818

U.S. Patent 6,404,674 to Anthony et al. discloses an MRAM device having a pinned-on-the-fly soft reference layer.
